

## ABOUT

Marc Berman is the founding principal of Interplan with a varied background including development, construction management and consulting. His work experience includes a full spectrum of interiors projects and base building renovation work.

Marc believes that the key to a successful project is translating the Client's business plan and image into a successful project that is on schedule, on budget and translates the Client's image into the best design solution.

His strong business acumen and belief in building and maintaining longstanding relationships have been the keys to his success.

*Good design is a function of listening and learning first. No task is too small and the reward of hard work is the satisfaction of a successful project and new relationship.*
